Batch / Lot number: AZI-2404-158

Expiry date: 04/2027

Complainant

Name: Dr. Helen Carter, Greenfield Medical Centre

Contact: h.carter@greenfieldmed.org

Description of complaint

A patient reported that two tablets from this batch were cracked and partially crumbled inside an intact blister.

The remaining tablets in the strip appeared softer than usual. No adverse effect was reported, but the patient was concerned about the correct dose being delivered.

Storage was as directed, below 25C, away from moisture.
